Crystallographers

This section is intended to be a series of short paragraphs dealing with the activities of crystallographers, such as their changes of position, promotions, assumption of significant new duties, honours, etc. Items for inclusion, subject to the approval of the Editorial Board, should be sent to the Executive Secretary of the International Union of Crystallography (J. N. King, International Union of Crystallography, 5 Abbey Square, Chester CH1 2 HU, England).

Professor **N. Bartlett**, of the Department of Chemistry of the University of California at Berkeley, has been elected foreign associate of the USA National Academy of Sciences.

Professor **P. Coppens**, of the Chemistry Department of the State University of New York at Buffalo, has been elected a corresponding member of the Royal Netherlands Academy of Arts and Sciences.

Dr **G. Kostorz** has been appointed a Co-editor of the *Journal of Applied Crystallography*. His research interests cover a wide range of materials science and the application of both X-ray and neutron techniques. After graduating from the University of Göttingen he spent three years at the Argonne National Laboratory and several years at the Institut Laue-Langevin. In 1978 he moved to the Max-Planck Institut für Metallforschung in Stuttgart, where he has been applying X-ray and neutron scattering techniques to the study of kinetic and structural aspects of the decomposition of alloys. His full address is given on the inside front cover of the journal.

J. Appl. Cryst. (1979). **12**, 639-640

Prices of Acta Crystallographica and Journal of Applied Crystallography

The Executive Committee of the

International Union of Crystallography has found it necessary to increase the yearly subscription rates and also the prices of back numbers for *Acta Crystallographica* and *Journal of Applied Crystallography* as from 1 January 1980. Every endeavour has been made to keep these increases to a minimum.

Acta Crystallographica

The following rates will apply for Volumes A36 and B36 (1980). All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment with notice.

Complete volumes, regular price per volume

Sections A & B combined subscription)	Dkr 2265	(\$436.00)
Section A only	Dkr 565	(\$109.00)
Section B only	Dkr 1910	(\$367.00)

Complete volumes, reduced price for individuals

Sections A & B (combined subscription)	Dkr 935	(\$180.00)
Section A only	Dkr 235	(\$45.00)
Section B only	Dkr 790	(\$152.00)

All subscribers in the USA and Canada should add to the above subscription rates the additional charges for air-freighting as mentioned below.

The reduced-rate subscriptions are ordinarily only available to members of recognized scientific societies, and applications must be accompanied by a written undertaking that the journal is for the personal use of the subscriber and will not be made available to libraries, institutions, etc. These conditions also apply to persons wishing to order back numbers at the reduced rates.

Single parts

The prices of single parts are as follows:		
Vol. A36	Dkr 140	(\$27.00)
Vol. B36	Dkr 240	(\$46.00)

Journal of Applied Crystallography

The following rates will apply for Volume 13 (1980). All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

Complete volumes, regular price per volume	Dkr 550	(\$106.00)
--	---------	------------

Complete volumes, reduced price for individuals Dkr 270 (\$52.00)

All subscribers in the USA and Canada should add to the above subscription rates the additional charge for air-freighting as mentioned below.

The same conditions apply to reduced-rate subscriptions as in the case of *Acta Crystallographica* (see above).

Single parts

The price for single parts of Volume 13 (1980) is Dkr 140 (\$27.00)

Airfreighting of copies to the USA and Canada

Deliveries of *Acta Crystallographica* and *Journal of Applied Crystallography* to the USA and Canada in 1980 will continue to be by air freight to New York and thence by second class mail. The use of this service is obligatory for all subscribers in those countries. The charges in Danish kroner are as given below

Acta Crystallographica

Sections A & B (combined subscription) Add Dkr	80	(\$15.00)
Section A only Add Dkr	25	(\$5.00)
Section B only Add Dkr	60	(\$11.00)

Journal of Applied Crystallography

Add Dkr 25 (\$5.00)

Since the charges are fixed in Danish kroner, the US dollar equivalents are subject to exchange-rate fluctuations.

Price of back numbers

The prices of back numbers have been increased so that they are the same as the subscription rates for the volumes to be published in 1980. The prices of Volumes 1-23 of *Acta Crystallographica*, which were published before the journal was divided into two sections have been increased to the same price as the A volumes. The prices are fixed in Danish kroner and the US dollar equivalents given below are subject to exchange-rate fluctuations.

Acta Crystallographica

Complete volumes, regular price per volume

Vols 1-23	Dkr 565	(\$109.00)
Combined Vols. 24-35	Dkr 2265	(\$436.00)
Vols. A24-A35	Dkr 565	(\$109.00)
Vols. B24-B35	Dkr 1910	(\$367.00)
