

Crystallographers

J. Appl. Cryst. (1982), **15**, 638

This section is intended to be a series of short paragraphs dealing with the activities of crystallographers, such as their changes of position, promotions, assumption of significant new duties, honours, etc. Items for inclusion, subject to the approval of the Editorial Board, should be sent to the Executive Secretary of the International Union of Crystallography (J. N. King, International Union of Crystallography, 5 Abbey Square, Chester CH1 2HU, England).

Maurice Loyal Huggins died on 17 December 1981 at the age of 84. Returning from active service in World War I, he received his AB and BS degrees from the University of California at Berkeley in 1919, his MS in 1920 and his PhD in 1922. Following a postdoctoral fellowship at Harvard University and at the California Institute of Technology, he progressed from instructor to assistant professor at Stanford University from 1925 to 1932, becoming an associate professor at Johns Hopkins University from 1933 to 1936, research associate at Eastman Kodak Company from 1936 to 1958, and senior research associate at Stanford Research Institute from 1959 to 1967. He made numerous important theoretical contributions to crystal chemistry. The American Society for X-ray and Electron Diffraction was initiated largely through his efforts, and he was elected president at its first meeting on Gibson Island in 1941. He was honored by awards from the New York Academy of Sciences (1941), the American Ceramic Society (1956) and the American Chemical Society (1975 and 1981), and received honorary doctorates from Clausthal Technical University (1972) and Kent State University (1975).

International Union of Crystallography

J. Appl. Cryst. (1982), **15**, 638–639

Prices of *Acta Crystallographica* and *Journal of Applied Crystallography*

The Executive Committee of the International Union of Crystallography has found it necessary to increase the yearly subscription rates and also the prices of back numbers for *Acta Crystallographica* and *Journal of Applied Crystallography* as from 1 January 1983. Every endeavour has been made to keep these increases to a minimum.

Acta Crystallographica

From 1 January 1983 *Acta Crystallographica* will be published in three sections [see *Acta Cryst.* (1982), A/B38, 1 for a more detailed explanation of the new

division]. Section A will continue to be published bimonthly, commencing on 1 January; Section B will also be published bimonthly, commencing on 1 February; and Section C will be published monthly on the 15th of each month. The following rates will apply for Volumes A39, B39 and C39 (1983). Note that, except as single parts, Sections B and C are only available together.

All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

Complete volumes, regular price per volume

Sections A, B & C (combined subscription)	Dkr 5125	(\$657)
Section A only	Dkr 1225	(\$157)
Sections B & C (combined subscription)	Dkr 4100	(\$526)

Complete volumes, reduced price for individuals

Sections A, B & C (combined subscription)	Dkr 1380	(\$177)
Section A only	Dkr 330	(\$42)
Sections B & C (combined subscription)	Dkr 1150	(\$147)

All subscribers in the USA and Canada should add to the above subscription rates the additional charges for air-freighting as mentioned below.

The reduced-rate subscriptions are ordinarily only available to members of recognized scientific societies, and applications must be accompanied by a written undertaking that the journal is for the personal use of the subscriber and will not be made available to libraries, institutions, etc. These conditions also apply to persons wishing to order back numbers at the reduced rates.

Single parts

The prices of single parts are as follows:		
Vol. A39	Dkr 275	(\$35)
Vol. B39	Dkr 275	(\$35)
Vol. C39	Dkr 400	(\$51)

Journal of Applied Crystallography

The following rates will apply for Volume 16 (1983). All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

Complete volumes, regular price per volume Dkr 1225 (\$157)

Complete volumes, reduced price for individuals Dkr 400 (\$51)

All subscribers in the USA and Canada should add to the above subscription rates the additional charge for air-freighting as mentioned below.

The same conditions apply to reduced-rate subscriptions as in the case of *Acta Crystallographica* (see above).

Single parts

The price for single parts of Volume 16 (1983) is Dkr 275 (\$35).

Airfreighting of copies to the USA and Canada

Deliveries of *Acta Crystallographica* and *Journal of Applied Crystallography* to the USA and Canada in 1983 will continue to be by air freight to New York and thence by second class mail. The use of this service is obligatory for all subscribers in those countries. The charges in Danish kroner are as given below

Acta Crystallographica

Sections A, B & C (combined subscription)	Add Dkr 230	(\$29)
Section A only	Add Dkr 55	(\$7)
Sections B & C (combined subscription)	Add Dkr 175	(\$22)

Journal of Applied Crystallography

Add Dkr 55 (\$7)

Since the charges are fixed in Danish kroner, the US dollar equivalents are subject to exchange-rate fluctuations.

Prices of back numbers

The prices of back numbers have been increased so that they relate to the subscription rates for the volumes to be published in 1983. The prices are fixed in Danish kroner and the US dollar equivalents given below are subject to exchange-rate fluctuations.

Acta Crystallographica

Complete volumes, regular price per volume

Vols. 1–23	Dkr 1225	(\$157)
Combined		
Vols. 24–38	Dkr 4600	(\$590)
Vols. A24–A38	Dkr 1225	(\$157)
Vols. B24–B38	Dkr 3500	(\$449)
